DETAILED ACTION

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Election/Restrictions

Applicant's election without traverse of Group I, claims 1-11 and 22 in Paper No. 9 is acknowledged.

Preliminary Amendment

The preliminary amendment filed November 13, 2002 has been entered.

Information Disclosure Statement

The information referred to in the information disclosure statement filed November 13, 2002 has been considered as to the merits.

Specification

Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract

Art Unit: 3636

on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

The abstract of the disclosure is objected to because it includes legal phraseology ("means"). Correction is required. See MPEP § 608.01(b).

Claim Objections

Claims 6-11 and 22 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from another multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which

Art Unit: 3636

applicant regards as the invention. In claim 2, the "or" recitation fails to particularly define the metes and bounds of the claims.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5, as best understood with the above cited indefiniteness, are rejected under 35 U.S.C. 102(b) as being anticipated by Murray (5660445). Note the occupant harness (32), seat harness (11), and means (18b) for releasably connecting the occupant harness to the seat harness.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Occupant restraint devices are shown by Wilkinson (1298615), Owens (4205670), Spinosa et al (4738413), Perez (6109698), Zakely (2979028), Simpson (4302049), and Dillender (3380776).
